

**Sigma™**

Merchandising  
system for fresh

**Technical sheet**

# Sell more, waste less!

Increase  
profitability  
and improve  
sustainability

## Excellent functionality and operational efficiency

Sigma is a range of merchandising display solutions for fresh produce. Each kit is designed for easy assembly. Aluminium shelving ensures effective cooler circulation and maximises refrigeration air flow. The anodized surface is quick to clean and refill, creating amazing visual displays.

## Increasing profitability

Different shelving options and configurations help create abundant displays for fruits and vegetables. Sigma™ helps manage inventory levels making it easier to rotate product, resulting in reduced shrink and increased profits Merchandisers are able to create high impact, abundant looking displays using up to 50% less inventory.

# What is it and how does it work?

**Sigma merchandising systems help you create stunning visual displays and massive presentations to showcase more variety of produce without using the large display inventory that can be lost through shrink.**

## Key benefits

**Increase sales** - Improved visual appearance: more abundance and beautifully merchandised.

**Increase profits** - Reduce shrink by using less inventory to create these more abundant looking displays.

**Improve functionality** - Faster, easier handling and cleaning that can be done more frequently.

**Maximize refrigeration circulation** - Allows for critical temperature merchandising.

## Key features

- Anodized aluminium shelving and racking systems that will never rust, peel, chip or flake.
- Aluminium is one of the best conductors of temperature, drawing out and dissipating heat quicker than steel.
- The perforations allow greater circulation, thus improving refrigeration and maximizing air flow.

Cooling the product between 1-4 Celsius dramatically increases shelf life and increases freshness.

Sigma enables you to  
sell more and waste less

# Universal kits 1250 mm section

## Extendable height and depth

Modular solutions tailored to create abundance, minimize shrink and improve appearance.

## Sigma

- Modularity (sections can be combined freely)
- Simplicity (one code, one fit, pre-pack)
- Functionality (easy install, easy cleaning)

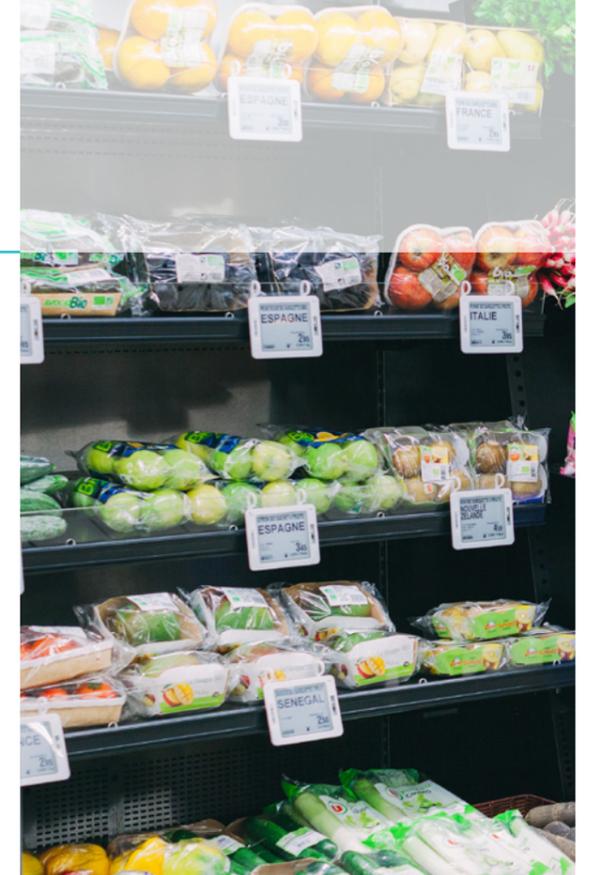

# Straight shelves

## High volume: pre-packed or piece picking produce

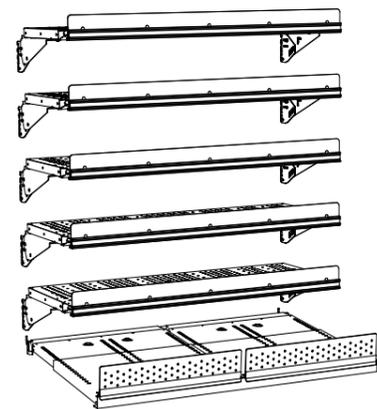

Provides high impact abundant presentations with full view of the product on the shelf, no obstructions or distractions.

## Features

- Light weight yet strong construction for effortless installation.
- Aluminium is one of the best conductors of temperature and shelves are perforated for cleanliness and to increase air flow.
- Supports bulk or packaged product, displayed loose or in baskets.
- Brackets attach to the standards in the back of the case and fences are included as standard.

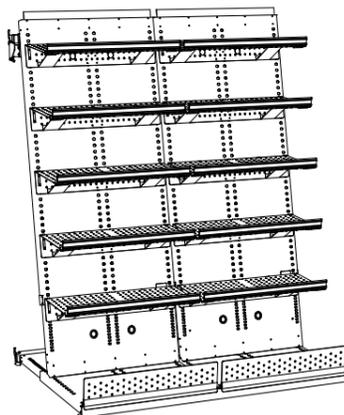

## Straight shelves kit

### Baseload products.

- 25 mm and 30 mm brackets in pack
- Small and medium fences included as standard

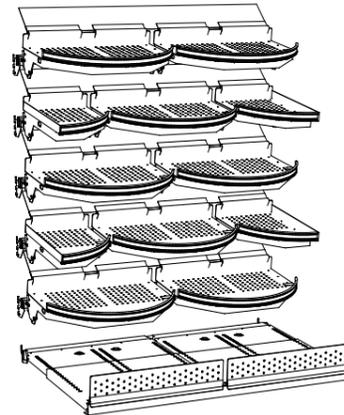

## Vertical kit

### Driving impulse purchases for niche and delicate produce.

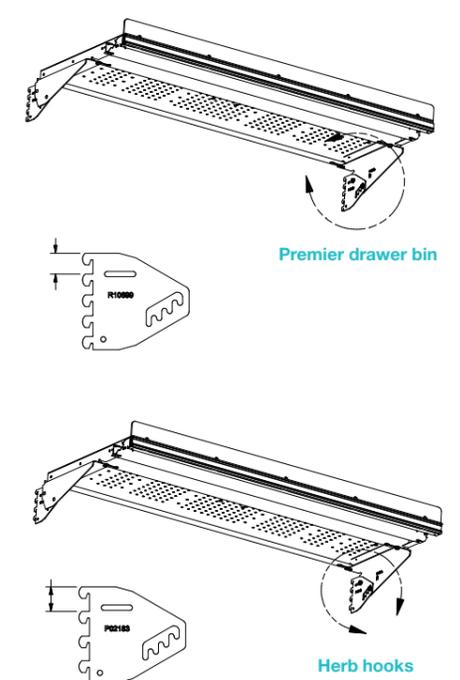

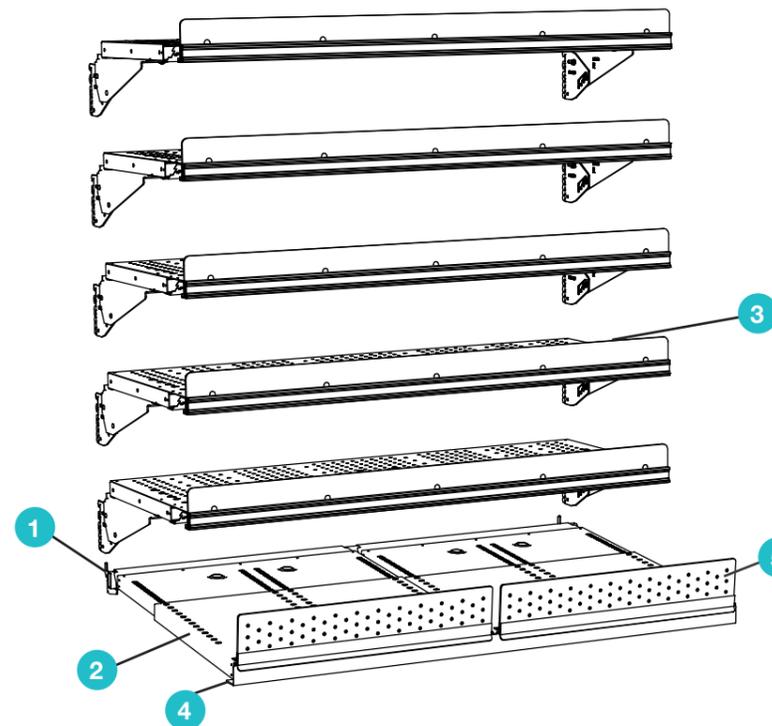

- Straights
- Curved shelves
- Both supplied with Universal brackets and fences.

## Pod kit

### Generating disruption and interest with more produce varieties available in a standard chiller section.

- Increased variety within 1250 mm section
- 25 mm and 30 mm brackets

No	Qty	Description
1	1	Bottom mounting bar and pair of fixing saddles (LH and RH)
2	2	Extendable base plate (525 mm to 800 mm)
3	5	Set of shelves with front fences and 25 mm and 30 mm brackets
4	1	Rack mounting channel
5	2	Front base fence

Outside of promotion, display is number one driver for fresh impulse purchases\*

\* Food Marketing Institute | The Power of Produce 2016 - The survey was conducted in the first and second week of April 2015, among a national sample of 1,327 U.S. consumers.

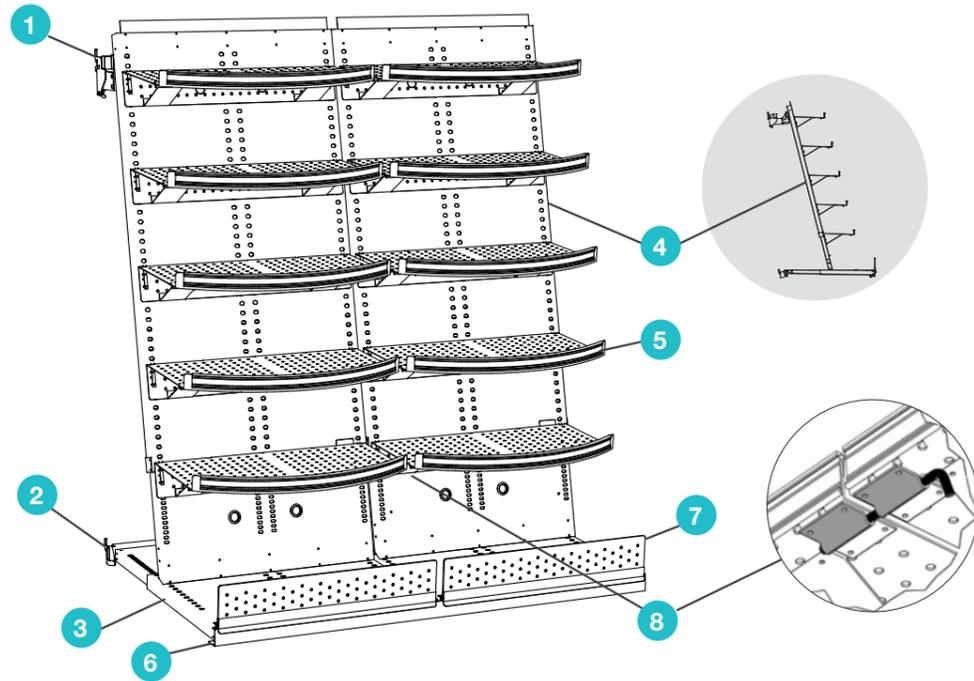

# Vertical with curved shelves

## Vertical merchandising set

Vertical merchandising sets produce a spectacular visual effect, creating a massive presentation without using excessive display inventory that can be lost through shrink.

Curved design encourages impulse purchases with produce closer to the customer and provides a stunningly dramatic profile for full length wall cases.

Sigma™ vertical kit with universal brackets attaches to the standards in the back of the case and fences are included as standard.

No	Qty	Description
1	1	Top mounting bar and saddles (LH and RH)
2	1	Bottom mounting bar and pair of fixing saddles (LH and RH)

5	10	Straight shelves with front fences (600 mm wide)
6	1	Rack mounting channel
7	2	Front base fence
8	5	Shelf alignment pin

# Pod's halves & quarters

## Increasing assortment

POD's are curved front shelves that create interest, contrast and distinction when set against straight edge shelves.

- Separate multi-level components mean a greater assortment is possible, allowing more variety without adding the large inventory expense and thus decreasing shrinkage.
- Quarter pods generate interest with produce offset and cascade, creating contrast when set against regular straight edge shelves. Curved design encourages impulse purchases and a stunningly dramatic profile for full length cases.
- Brackets attach to the standards in the back of the case and fences are included as standard.

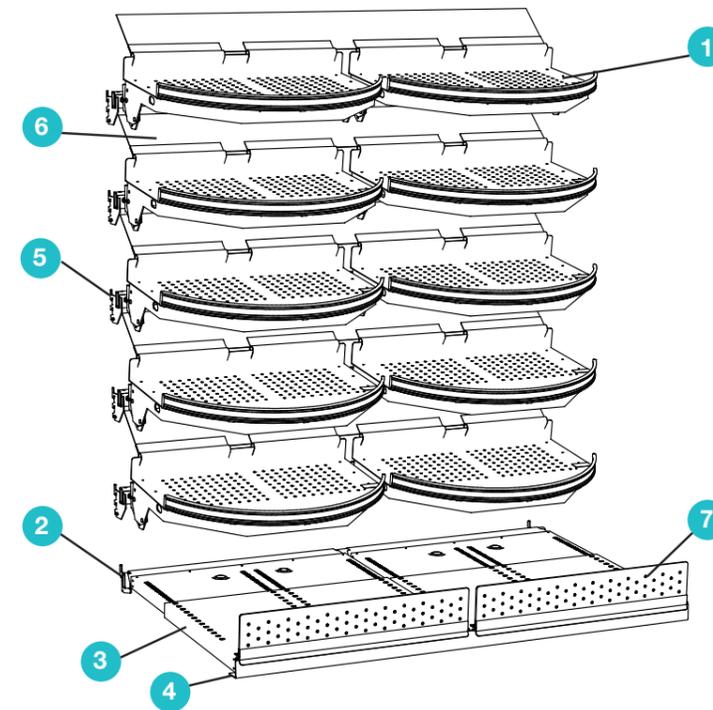

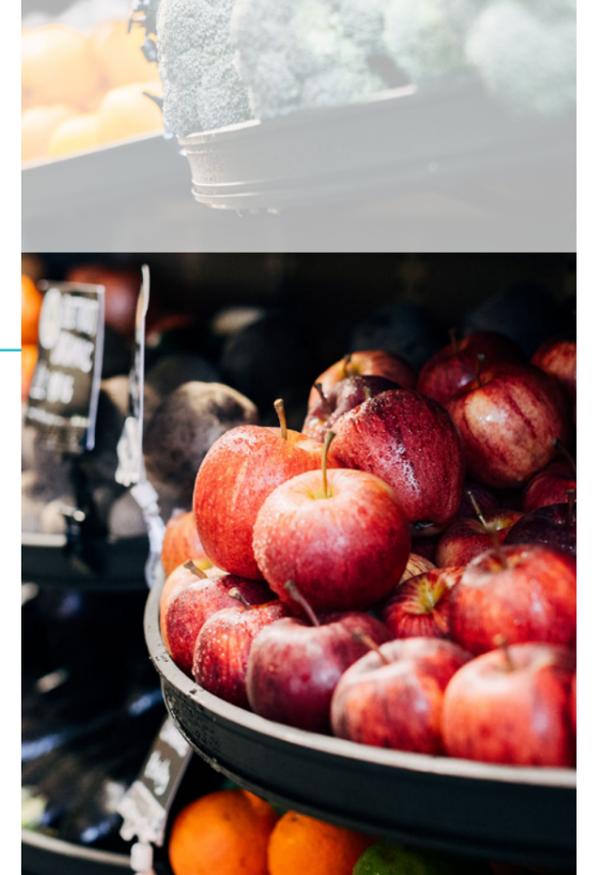

No	Qty	Description
1	3	Pair of Half pods (600 mm wide)
2	2	Pair of Quarter-Half-Quarter pods (300 mm wide)
3	1	Bottom mounting bar and pair of fixing saddles (LH and RH)
4	2	Extendable base plate (525 mm to 800 mm)
5	1	Rack mounting channel
6	5	Mounting bar and two pairs of fixing saddles for pod kit (LH and RH)
7	5	Baffle sets
8	2	Front base fence

# Pod's halves

## Increasing assortment

POD's are curved front shelves that create interest, contrast and distinction when set against straight edge shelves.

- Separate multi-level components mean a greater assortment is possible, allowing more variety without adding the large inventory expense and thus decreasing shrinkage.
- Multi tiered presentation creates interest, contrast and distinction when set against straight edge shelves. Curved design encourages impulse purchases and a stunningly dramatic profile for full length cases.
- Brackets attach to the standards in the back of the case and fences are included as standard.
