

**Facer™** - What is it and how does it work?

# Adjustable frames

## ORGANISE YOUR SHELF

- Stepless adjustable punched steel frames.
- Directly placed on shelf.
- Maintain products in place - one frame for each facing.
- Medium: silver / grey - Extra large: galvanised steel.

1 2 **FACER-FRAME**

3 4 **FACER-XL**

	Facer type	Expandable width in mm	Length in mm
1	Medium	47-70	295, 395, 455, 475, 485, 495, 595
2	Large	68-110	355, 400, 445, 455, 470, 475, 485, 495, 500, 555, 595, 655, 1000
3	Extra large	100-200	395, 455, 485, 495, 555, 595, 655, 1000
4	Extra large	200-300	395, 485, 495, 595, 720, 1000

• When choosing Facer™ size, consider product diameter, shelf depth and type. Facer™ fits a variety of existing and future product sizes.

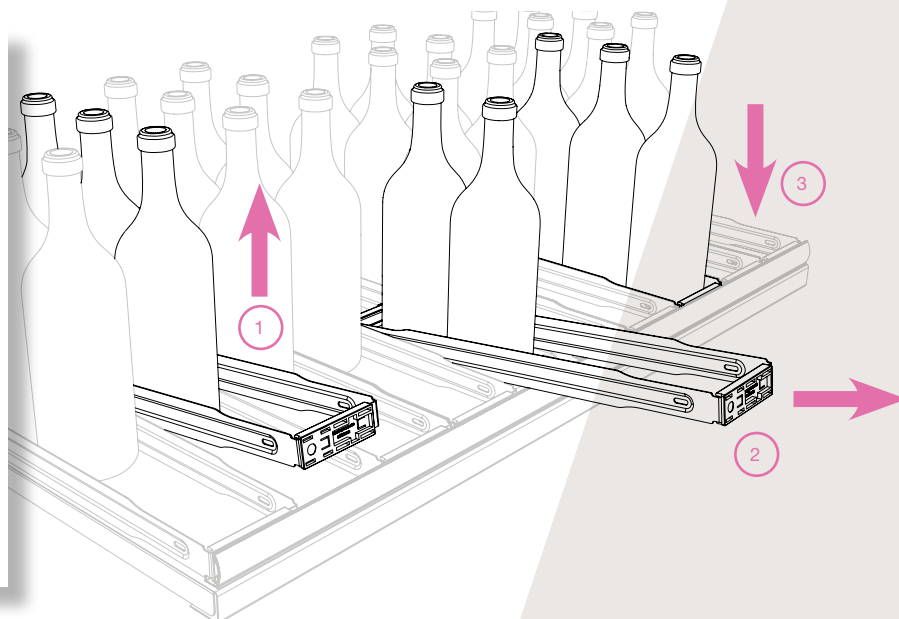

The unit cannot be incorrectly installed - back, front or upside down. Foolproof! it just works.

## PULL AND FACE UP IN ONE GO

1. Lift the front up from behind the front riser.
2. Pull it forward, dragging the stock forward.
3. Slide it back again and replace behind the riser.

# Front riser

## SHELF SEGMENTATION

- Front strip for locking of frame as well as branding.
- The steel frame is hidden behind a customisable riser, using printed insert.

### 1 FACER-STRIP

Description	Height in mm	Length in mm
1. With integrated front riser and label pocket	25	895, 998, 1000, 1245, 1250, 1310, 1320, 1325, 1330

# End cap and sign holder

## AVOID PULL FRAMES FROM SLIDING OFF THE SHELF

- Inserted into the front riser at each side.
- Builds 2 mm on each side.

## OPTIONAL VERTICAL SEGMENTATION

- Works as a sign-holder.
- For sign up to 1 mm thick.

FACER-END
